

CAPRI

CAPRI

Very comfortable and robust, the Capri chair is a great option for any space indoors or outdoors*.

With a solid steel structure, Capri is resistant to winds unlike lightweight plastic chairs which tend to blow around. Wire bars are spaced at small intervals minimising pressure points and offering surprising comfort.

Choose your colour! Capri is available in a myriad of powdercoat finishes to match almost any colour scheme.

*Capri can only be used outdoors when finished in Dulux Duratec Intensity & Duratec Zeus Powdercoat. Seat pads are unsuitable for outdoor use.

CAPRI
